Summary

I'm actively seeking a front-end development role. I'm knowledgeable in modern front-end technologies, such as React, Node, MongoDB, etc. I'm also not afraid to enter unfamiliar territory, and even embrace it.

Please don't hesitate to contact me; I'll get back to you super fast! You can email me here: faymatt96@gmail.com, and check out my GitHub profile, if you'd like: https://github.com/username1001, or even call me (570)766-4959
